

Devin Alvarez

Product Manager — Platform & Infrastructure

Remote (US) · devin.alvarez.pm@email.com · (312) 555-0147 · linkedin.com/in/devinalvarez

SUMMARY

Product Manager with 7 years focused on platform, infra, and internal-tools products. Strong technical fluency, pairs closely with engineering managers, and is deliberate about developer experience. Looking for a technical PM seat with real ownership.

EXPERIENCE

Product Manager, Platform · Vantage Labs, Remote 2019 – Present

- Own internal developer platform and CI/CD tooling used by 300+ engineers.
- Cut average build time 38% by prioritizing the right infra investments.
- Runs the platform roadmap with two engineering managers; known as the PM eng trusts.

Associate Product Manager → **Product Manager** · Brightpath AI, Chicago, IL 2016 – 2019

- Shipped the model-deployment workflow used across the ML org.
- Built the feature-flag and rollout system product.

EDUCATION

- B.S. Information Systems — University of Illinois, 2016

SKILLS & NOTES

- Platform / infra / internal-tools PM; comfortable in the weeds with engineers.
- Solid on metrics, rollout strategy, and cross-team sequencing.
- 7 years, two employers. Motivated by scope, not escape.
- Comp expectation: \$185–205k base. Availability: 4-week notice.
