

Sofia Ramos

Technical Product Manager

Austin, TX · sofia.amos.tpm@email.com · (512) 555-0119 · linkedin.com/in/sofiaramostpm

SUMMARY

Technical Product Manager with 8 years across API products and data platforms. Former data engineer who moved into product; strongest on API design, partner integrations, and turning technical constraints into clear customer value. Calm operator under shipping pressure.

EXPERIENCE

Technical Product Manager · Northwind Cloud, Austin, TX 2021 – Present

- Owns the public API + partner-integrations surface; grew partner integrations 3x.
- Led the API deprecation + versioning policy the whole company now follows.
- Writes crisp technical specs; runs launch reviews with staff engineers.

Product Manager, Data · Helio Systems, Remote 2018 – 2021

- Shipped the streaming-ingestion product from beta to GA.
- Owned the data-catalog product and its self-serve onboarding.

Data Engineer · Aperture Cloud, San Francisco, CA 2016 – 2018

- Built ETL and warehouse pipelines (Python, Spark, Postgres).

EDUCATION

- B.S. Computer Engineering — UT Austin, 2016

SKILLS & NOTES

- API / data-platform TPM with a real engineering foundation.
- Known for composure in launches and partner escalations.
- 8 years, three roles, steady progression. Internal — knows the Northwind stack.
- Comp expectation: \$200–220k base. Availability: 5-week notice.
